STATINTL

Proposal No. 4256

Dear John:

We constructed and delivered a [redacted] on a previous STATINTL contract. The attached cost breakdown and technical description is for the production of two (2) production prototypes of this device, but includes a number of improvements. A commercial grade manual is included in these costs and is in accordance with our specification TDS-3. Delivery of the two (2) equipments can be made six (6) weeks after receipt of authorization, the manual will be delivered twelve (12) weeks after authorization to proceed.

Also attached is the cost breakdown for twelve (12) additional units, these could be delivered three (3) months after approval of the prototype.

Very truly yours,

Jim
